

## Two-year mark of 7 October (ILOT): ICRC communications update for Movement partners

ICRC

3 October 2025

*This document is intended to support communication efforts of the International Red Cross and Red Crescent Movement components. It is for internal use by all Movement components only, and not to be shared externally.*

### The never-ending cycle of displacement

**Caption** (*JanuaryCeasefire\_Walk back to northern Gaza*): During the ceasefire, those who had been previously displaced from northern Gaza walked anything between seven to 10 kilometres to return home. The journey was one of immense hardship, marked by the road's length and ruggedness, particularly for children, the elderly, the sick, and the injured. Despite the suffering, the joy and relief of finally returning home was evident on their faces. **(27 January 2025)**

*With the recent intensification of military hostilities in Gaza City, many are now being forced to move from their homes, yet again, leaving behind their lives. (September-October 2025)*
